Calls

- A call is an instruction to do something at the lead end
- Calls in plain bob are made when the treble is in seconds place
- Calls tell you what to do at the lead end
- Calls in plain bob affect the bells in second, third, and fourth places when the treble leads

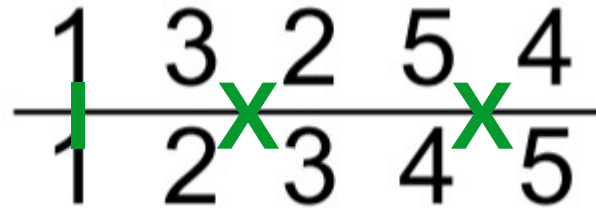

Plain Hunt on Five

- We describe what happens between any two rows by the place notation
- That tells us how one row differs from the one before

Bob effect

How the work is described

Bob

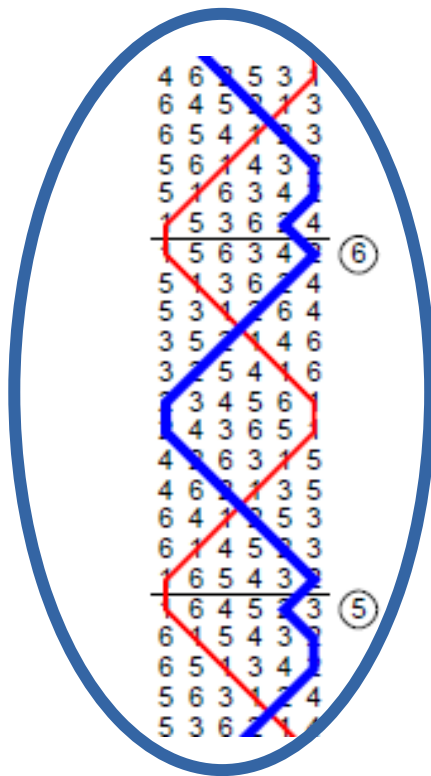

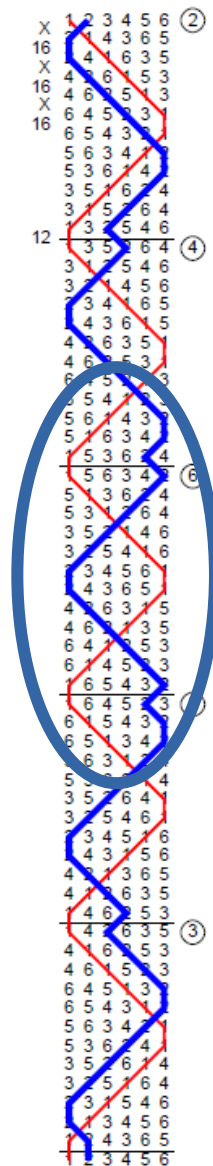

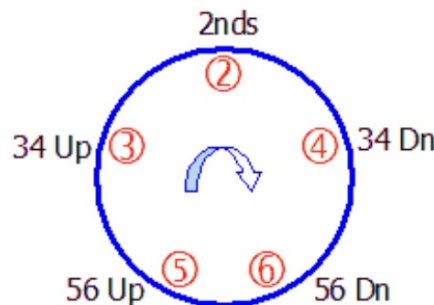

- The bell that was going to dodge in 3-4 down **runs in** and becomes second place bell again
- The bell that was going to make seconds **runs out** and becomes third place bell again
- The bell that was going to dodge in 3-4 up makes an extra blow in fourth place, **makes the bob**, and becomes fourths place bell
- The work of the bell in fifths place is **not affected**

Plain Bob Minor

- Minor – on six bells
- Instead of making four blows in fifths, two bells dodge in 5-6
 - If going up, dodge then lie behind
 - If going down, lie behind then dodge

Plain Bob Minor

Pass the treble in 5,6 up, dodge 3,4 down
Pass the treble in 4,5 up, dodge 5,6 down
Pass the treble in 4,5 down, dodge in 5,6 up
